

As Winter approaches, residents are reminded the storage of boats, watercraft, RVs and trailers on residential lots have to meet certain restrictions as detailed in the Zoning Ordinance (Sec. 44-170).

During the months of November through March, the measurement of 45 ft. from the edge of the street, or 25 ft. from the property line is required to comply with the ordinance.

The measurement is 12 ft. from the edge of the street during the months of April, May, September and October.

The ordinance also limits this type of storage to one-third of the total yard space. All items must be licensed and registered to the property owner or the property owner's immediate family.

Please review Section 44-170 for additional information of storage on vacant lots.

A. 25 FT. FROM LOT LINE

B. 45 FT. FROM EDGE OF STREET
